

CryoTherapy DE Treatment

McKesson CryoTherapy DE Treatment offers an innovative cryosurgery system that reduces waste and controls dosing for excellent resolution. Packaged in a convenient, reusable kit that includes canister(s), CryoTherapy buds, Get Started card, instructional manual and safety data sheet. Available in 88 mL canister with two treatment-specific bud designs (arrow-shaped and round) to meet your application needs. The practical replacement options make our reusable kits an economical and effective way for clinicians to cryosurgically treat a wide range of conditions with increased precision. Ingredients: dimethyl ether, propane and isobutane. Shelf life: 3 years.

Features and Benefits

- 88mL; 10% more than competing brand
- -55° C; colder temperature promotes better resolution
- Handheld device with reusable storage kit
- Contoured actuator button for ease of use
- Ergonomically shaped canisters for easy handling
- Quick-reference user guide and safety data sheet included in each kit
- Replacement buds and canisters are available
- Not made with natural rubber latex
