

SAFETY DATA SHEET

Emit II Plus Buprenorphine Assay

SDS #: 10720046

Section 1. Identification

Product identifier : Emit II Plus Buprenorphine Assay
Product code : 9S029, 9S039, 9S129, 10720046, 10720047, 10720048
Product type : Liquid.

Relevant identified uses of the substance or mixture and uses advised against

Not applicable.

Manufactured/supplied : Siemens Healthcare Diagnostics Inc.
511 Benedict Avenue
Tarrytown, NY 10591-5097 USA
1-877-229-3711

(800) 424-9300 (CHEMTREC) (24/365)

Section 2. Hazards identification

OSHA/HCS status : Emit II Plus Enzyme Reagent 2 While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Emit II Plus Antibody/Substrate Reagent 1 While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture : Emit II Plus Enzyme Reagent 2 Not classified.
Emit II Plus Antibody/Substrate Reagent 1 Not classified.
Additional information : Not available.

Sodium azide may react with lead or copper plumbing to form highly explosive metal azides.

GHS label elements

Signal word : Emit II Plus Enzyme Reagent 2 No signal word.
Emit II Plus Antibody/Substrate Reagent 1 No signal word.
Hazard statements : Emit II Plus Enzyme Reagent 2 No known significant effects or critical hazards.
Emit II Plus Antibody/Substrate Reagent 1 No known significant effects or critical hazards.

Precautionary statements

Prevention : Emit II Plus Enzyme Reagent 2 Not applicable.
Emit II Plus Antibody/Substrate Reagent 1 Not applicable.
Response : Emit II Plus Enzyme Reagent 2 Not applicable.
Emit II Plus Antibody/Substrate Reagent 1 Not applicable.

Section 2. Hazards identification

Storage	: Emit II Plus Enzyme Reagent 2	Not applicable.
	Emit II Plus Antibody/Substrate Reagent 1	Not applicable.
Disposal	: Emit II Plus Enzyme Reagent 2	Not applicable.
	Emit II Plus Antibody/Substrate Reagent 1	Not applicable.
Supplemental label elements	: Emit II Plus Enzyme Reagent 2	None known.
	Emit II Plus Antibody/Substrate Reagent 1	None known.
Hazards not otherwise classified	: Emit II Plus Enzyme Reagent 2	None known.
	Emit II Plus Antibody/Substrate Reagent 1	None known.

Section 3. Composition/information on ingredients

Substance/mixture	: Emit II Plus Enzyme Reagent 2	Mixture
	Emit II Plus Antibody/Substrate Reagent 1	Mixture

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	: Emit II Plus Enzyme Reagent 2	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	Emit II Plus Antibody/Substrate Reagent 1	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Emit II Plus Enzyme Reagent 2	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	Emit II Plus Antibody/Substrate Reagent 1	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Emit II Plus Enzyme Reagent 2	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	Emit II Plus Antibody/Substrate Reagent 1	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Emit II Plus Enzyme Reagent 2	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Emit II Plus Antibody/Substrate Reagent 1	Wash out mouth with water. Remove

Section 4. First aid measures

victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.
Inhalation	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.
Skin contact	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.
Ingestion	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.
Inhalation	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.
Skin contact	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.
Ingestion	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media	: In case of fire, use water spray (fog), foam or dry chemical.
Unsuitable extinguishing media	: None known.

Specific hazards arising from the chemical : In a fire or if heated, a pressure increase will occur and the container may burst.

Section 5. Fire-fighting measures

- Hazardous thermal decomposition products** : Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
nitrogen oxides
sulfur oxides
metal oxide/oxides
- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

- Physical state** : Emit II Plus Enzyme Reagent 2 Liquid.
Emit II Plus Antibody/Substrate Reagent 1 Liquid.
- Color** : Emit II Plus Enzyme Reagent 2 Not relevant/applicable due to nature of the product.
Emit II Plus Antibody/Substrate Reagent 1 Not relevant/applicable due to nature of the product.
- Odor** : Emit II Plus Enzyme Reagent 2 Not relevant/applicable due to nature of the product.
Emit II Plus Antibody/Substrate Reagent 1 Not relevant/applicable due to nature of the product.
- pH** : Emit II Plus Enzyme Reagent 2 Not applicable.
Emit II Plus Antibody/Substrate Reagent 1 5.5
- Flash point** : Emit II Plus Enzyme Reagent 2 [Product does not sustain combustion.]
Emit II Plus Antibody/Substrate Reagent 1 [Product does not sustain combustion.]
- Flammability (solid, gas)** : Emit II Plus Enzyme Reagent 2 Not relevant/applicable due to nature of the product.
Emit II Plus Antibody/Substrate Reagent 1 Not relevant/applicable due to nature of the product.

Section 9. Physical and chemical properties

Relative density	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not relevant/applicable due to nature of the product. Not relevant/applicable due to nature of the product.
Solubility in water	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not relevant/applicable due to nature of the product. Not relevant/applicable due to nature of the product.
Partition coefficient: n-octanol/water	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.
Auto-ignition temperature	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.
Viscosity	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.
Aerosol product		
Type of aerosol	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not applicable. Not applicable.

Section 10. Stability and reactivity

Reactivity	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	No specific test data related to reactivity available for this product or its ingredients. No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	The product is stable. The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.	
Conditions to avoid	: No specific data.	
Incompatible materials	: No specific data.	
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.	

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.
---------------------------	--	----------------------------------

Irritation/Corrosion

Not available.

Conclusion/Summary

Skin	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.
Eyes	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.
Respiratory	: Emit II Plus Enzyme Reagent 2 Emit II Plus Antibody/Substrate Reagent 1	Not available. Not available.

Sensitization

Not available.

Section 11. Toxicological information

Conclusion/Summary

Skin	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.
Respiratory	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Mutagenicity

Not available.

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Carcinogenicity

Not available.

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Reproductive toxicity

Not available.

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Teratogenicity

Not available.

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Potential acute health effects

Eye contact	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.
Inhalation	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.
Skin contact	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.
Ingestion	: Emit II Plus Enzyme Reagent 2	No known significant effects or critical hazards.
	Emit II Plus Antibody/Substrate Reagent 1	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.

Section 11. Toxicological information

Inhalation	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.
Skin contact	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.
Ingestion	: Emit II Plus Enzyme Reagent 2	No specific data.
	Emit II Plus Antibody/Substrate Reagent 1	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.
Potential delayed effects	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Long term exposure

Potential immediate effects	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.
Potential delayed effects	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Potential chronic health effects

Not available.

Conclusion/Summary	: Not available.	Emit II Plus Enzyme Reagent 2
	Not available.	Emit II Plus Antibody/Substrate Reagent 1
General	: No known significant effects or critical hazards.	
Carcinogenicity	: No known significant effects or critical hazards.	
Mutagenicity	: No known significant effects or critical hazards.	
Teratogenicity	: No known significant effects or critical hazards.	
Developmental effects	: No known significant effects or critical hazards.	
Fertility effects	: No known significant effects or critical hazards.	

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Interactive effects	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Other information	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Section 12. Ecological information

Toxicity

Not available.

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Persistence and degradability

Conclusion/Summary	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Bioaccumulative potential

Not available.

Section 12. Ecological information

Mobility in soil

Soil/water partition coefficient (K_{oc})	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.
Mobility	: Emit II Plus Enzyme Reagent 2	Not available.
	Emit II Plus Antibody/Substrate Reagent 1	Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Sodium azide may react with lead or copper plumbing to form highly explosive metal azides.
